---

## **Professional Summary**

Experienced Senior Software Engineer with 5 years of expertise in developing scalable, high-performance web applications using Java, Spring Boot, Microservices, AWS, React.js, MySQL, Oracle and other cutting-edge technologies. Adept at both front-end and back-end development, with a proven ability to solve complex problems, mentor teams, and deliver high-quality software solutions on time. Skilled in collaborating with cross-functional teams and maintaining production-level code. Seeking to leverage my skills in a challenging role at a forward-thinking organization.

## **Technical Skills**

Backend: Java, Spring MVC, Spring Boot, Hibernate, Microservices, MySQL, RESTful APIs

Frontend: JavaScript, jQuery, React.js, HTML5, CSS3, JSP

Database: MySQL, SQL, Oracle, Stored Procedures, Joins, CRUD Operations

Version Control: SVN, Git and GitLab

Web Services: REST APIs, JSON and SOAP

Other Tools: Maven, JIRA, Eclipse, IntelliJ IDEA and Postman

Front-End: Responsive Web Design, JSP, React.js Components (Class & Functional), HTML5, CSS3

Development Practices: Test-Driven Development (TDD), Agile, CI/CD

## **Professional Experience**

### ✧ **Celusion Technology Pvt. Ltd.**

- Senior Software Engineer
- September 2023 – Present
- Designed and developed full-stack applications using Java, Spring Boot, JSP, JavaScript, and jQuery.
- Collaborated with cross-functional teams to deliver web-based solutions for clients using AWS and Microservices.
- Developed and maintained RESTful APIs for efficient data exchange between clients and servers.
- Worked on third-party integration's, including SAP and SOAP services.
- Managed customer issues and implemented new features based on client requirements using a ticketing system.
- Built reusable front-end components and optimized performance using JavaScript and React.js.
- Mentored junior developers, conducted code reviews, and fostered a knowledge-sharing culture within the team.
- Contributed to multiple modules, such as Business Development Advance/Expense(BDA/E ), Product Rate Revision(PRR), and Vendor Notification(VN).

## ✧ **Juno Software System Pvt. Ltd.**

- Senior Software Engineer
- December 2019 – August 2023
- Design and develop high-quality web applications using Java, Spring MVC, Spring Boot, Microservices, React.js, AWS, and MySQL.
- Write efficient, maintainable code following industry best practices.
- Build reusable code and libraries for future use across the application.
- Create and maintain RESTful APIs to facilitate communication between frontend and backend systems.
- Provide mentorship to junior developers and encourage best practices within the team.
- Troubleshoot, debug, and provide timely resolution to production issues.
- Collaborate with clients to manage modifications through a ticketing system.
- Work on multiple modules like Finance, Event, Academic, and Purchase, Stock and Inventory (PSI) in the ERP system.

## **Education**

Savitribai Phule Pune University

Master of Computer Applications (MCA) – Completed in 2020

B.N Mandal University

Bachelor of Computer Applications (BCA) – Completed in 2017

## **Soft Skills**

- Strong problem-solving and analytical abilities.
- Ability to work independently and in a team environment.
- Excellent communication and interpersonal skills.
- Time management and attention to detail.
- Mentorship and leadership experience.

## **Certification**

- Web Designing Certification by Elite Software.
- Java Certification by Coursera.
- React.js Certification by Naresh Technology.
