EDUCATION

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.E., CT	KITS, Ramtek	7.62	June 2023
Diploma	KDK Nagpur Polytechnic Nagpur	76	July 2020

EXPERIENCE

- Unitel Software Limited** August 2023 - Present
Associate Software Engineer Hyderabad, India
 - Developed dynamic and responsive user interfaces for a scalable **LMS (Learning Management System)** using **React.js** and **TailwindCSS**, improving page load speed by 30% and ensuring 100% mobile responsiveness.
 - Designed and implemented role-based dashboards for admins, instructors, and students, streamlining course management, reducing administrative workload by 40%, and improving student engagement.
 - Built **RESTful APIs using Node.js and Express.js**, ensuring efficient data flow between frontend and backend, reducing API response time by **25%**.

PROJECTS

- Virtual Classroom** December 2024
Tools: Java, JSP, HTML, CSS, JavaScript, Mysql, servlet 
 - Supported video tutorials, text messages, audio tutorials, and presentations to cater to diverse learning preferences.
 - Implemented distinct functionalities for administrators, faculty, and students, ensuring tailored experiences for each user type.
- Gemini Clone** January 2025
Tools: HTML, CSS and React.js 
 - Built a **Gemini AI Clone using React.js**, providing an interactive chatbot interface.
 - Integrated API calls to fetch AI-generated responses dynamically.
 - Designed a responsive UI using React components, ensuring smooth user experience.
 - Optimized performance with lazy loading and efficient API request handling.
- FitFlex : Gym Website** December 2024
Tools: MongoDB, Express.js, React.js, Node.js 
 - Developed a fully responsive gym website using the **MERN stack**, ensuring seamless user experience across all devices.
 - Designed an interactive landing page with React.js, showcasing gym services, membership plans, and fitness programs.
 - Implemented user authentication (signup/login) for personalized access and membership management.
 - Built a **BMI Calculator**, allowing users to check their fitness levels based on height and weight.

SKILLS

- Programming Languages:** Java, JavaScript, SQL, Python
- Technologies:** ReactJS, JSP, Spring, Spring Boot, ExpressJS, MySql, HTML, CSS
- Tools:** Docker, VS Code, Git, GitHub, IntelliJ IDEA

CERTIFICATIONS

- Software Engineer Intern – HackerRank**, [Certification 1](#) Certificate
- HackaThon – Technex**, [Certification 2](#) Certificate

POSITIONS OF RESPONSIBILITY

- Senior Executive Member**, National Service Scheme –2023
- Event Management**, Teknodion'23 –2023
