P Sanjana

Power BI Developer

🦓 Hyderabad, India 🛼 +91 7032125098 | <u>mohan.ande01@gmail.com</u> // <u>linkedin.com/in/sanjana-p-877618200/</u>

PROFESSIONAL SUMMARY

Experienced Power BI Developer with 4+ years of expertise in designing and optimizing interactive dashboards, integrating multi-source data, and delivering actionable insights. Proficient in Power BI, SQL, Azure Data Factory, and DAX focusing on improving report performance, ensuring data accuracy, and automating workflows for business success. Skilled in collaborating with cross-functional teams and meeting tight deadlines to exceed stakeholder expectations.

EXPERIENCE

Capgemini

Associate Consultant – BI Developer

iii October 2020 - Present ♦ Hyderabad, Telangana, India

Project Name: Azure DevOps KPIs

- Designed and developed comprehensive ADO dashboards in Power BI, enabling real-time tracking and visualization of application delivery metrics like Say-Do ratio, Velocity to support strategic decision-making.
- Integrated SQL with Power BI to automate data extraction processes, saving 15 hours of manual work per week.
- Optimized data refresh times for Power BI reports and dashboards by implementing efficient data loading techniques, including incremental data refresh and query folding, reducing refresh durations by up to 40%.
- Implemented bookmarks and drill-through functionality in Power BI dashboards, enhancing user navigation and enabling detailed analysis of key metrics.
- Integrated AI-powered visuals in Power BI, such as key influencers and anomaly detection, to uncover hidden patterns in data.

Project Name: ITSM Dashboards - ServiceNow

- Created detailed incident, change, problem, and service request dashboards using ServiceNow data, providing ITSM teams with actionable insights for process improvement and SLA compliance.
- Utilized tools like Azure Data Factory and SSMS to transform raw data into structured formats, aligning with Common Information Model (CIM) standards for seamless integration into dashboards.
- Enhanced Power Query Efficiency by using parameterized queries, query folding, and incremental data refresh for optimal performance.
- Automated real-time email notifications and alerts dynamically using Power Automate to monitor key business
 metrics, reducing manual intervention and ensuring prompt action on critical events.

Project Name: Application Compliance Audit Trackers

- Created an interactive Financial Scorecard to align business activities with strategic goals by integrating key
 performance indicators (KPIs) across financial, customer, internal processes, and learning & growth perspectives.
- Engineered and fine-tuned 74+ DAX functions and queries, enabling precise data analysis, sophisticated calculations, and seamless report performance across diverse business accounts
- Led the successful deployment of a robust Audit Tracker, providing the leadership team with actionable insights to facilitate strategic conversations and closely monitor organizational progress.
- Mentored junior analysts in advanced analytical techniques using Power BI, improving team skill set and reducing reliance on external consultants.

EDUCATION

Bachelor of Science *in* Computer Science and Engineering

Marri Laxman Reddy Institute of Technology and Management

Graduated with 7.82/10 GPA

SKILLS

- Business Intelligence Tools: Microsoft Power BI, Microsoft Power Automate, Power BI Large Datasets
- ETL and Data Integration: Azure Data Factory (ADF), Azure Analysis Services (AAS)
- Data Analysis and Modeling: Common Information Model (CIM), Data Preprocessing, Data Transformation
- Database Management: SQL Server (SSMS), Snowflake
- Query Languages: SQL (Advanced), DAX (Advanced), MDX
- Programming Languages: C, Python (Data Analysis)
- Version Control & DevOps: Azure DevOps, Git, CI/CD Pipelines
- Collaboration Tools: Jira Align, ServiceNow

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900) earned in Oct 2021.
- Microsoft Certified: Azure Data Engineer Associate (DP-203) earned in Oct 2022.
- Microsoft Certified: Power BI Data Analyst Associate (PL-300) earned on Jan 2024.

ACCOMPLISHMENTS

- Recognized with the *Customer Delight Award* in 2023 for effectively interacting with stakeholders at all levels and consistently exceeding client expectations and delivering exceptional service.
- Acknowledged for Exceptional Performance in 2024, consistently achieving high standards and delivering results that significantly contributed to team success.
