# TANUJA GUNTURU

**Dot Net Engineer /** *Solution Architect*

*Result-oriented Professional with **10+ years** of rich experience in **Software Application Development, Testing and Deployment.***

Email: thanujamodhepalli@gmail.com          +91-9347588116

## Profile Summary:

➢ 10+ years of experience in .NET development, including design, development, and deployment of business applications.

➢ Proficient in creating Windows and Web-based applications using .NET Framework, C#, and ASP.NET, Microsoft SQL Server 2008/2012, including creating Business Intelligence solutions with SSIS.

➢ Extensive experience in data migration, conversion, and modelling from SQL Server 2002 to 2008/2012.

➢ Strong skills in developing and testing 3-tier architecture applications using MVC, ADO.NET, and REST API and Angular.

➢ Solid experience in Agile and Waterfall methodologies, with a focus on team collaboration and timely delivery. Proven ability to resolve customer support tickets and incidents with effective problem-solving.

➢ In-depth knowledge of Microsoft Azure services, Azure Resource Manager, Azure Portal, and Azure CLI.

➢ Excellent communication, interpersonal, and organizational skills, with a strong attention to detail and quick learning ability.

## Career Timeline:

🖥 Aug 2021 – Till date   - **Capgemini Limited**- Hyderabad – Senior Professional 1

🖥 April 2019 to July 2021      - Technology Analyst in **Tata Consultancy Services** under the payroll of **Foray Software Private Limited** – Hyderabad

🖥 June 2016 to Dec 2018      - **Infosys Limited** – Hyderabad – Technology Analyst

🖥 Aug 2014 – May 2016      - **Goose Technologies** – Hyderabad – Associate Software Engineer

## Projects Undertaken:

*At Capgemini Services:*

1. **Amadeus Hospitality (Mar 2024 – Till date)**

   Amadeus Sales & Catering – Delphi, the leading choice for sales and catering automation around the world and took the best CRM application available (Salesforce.com®) and layered our legendary sales and event technology on top, resulting in a powerful and flexible program designed to meet the needs of today's hospitality professionals.

   - Configured Salesforce Orgs with Bookings, Tasks, Accounts, and Properties.
   - Developed SSIS packages for change requests and merged updates into the main branch.
   - Conducted certification, smoke testing, and created SOQL/SQL queries for data handling.
   - Provided application support, resolved errors, and developed C# scripts for automation.

2. **Replay Manager Service (RMS) and Replay Manager VMware (RMSV) (**Dec 2021 – Feb2024)

   Replay Manager Service runs as a Microsoft Windows service to manage backup components, backup jobs, and restore points. The Replay Manager Service for VMware (RMSV) is packaged and delivered as part of the Dell Storage Integration Tools for VMware (DSITV).

   - Configured Microsoft Integration components, including Microsoft Server Local Volumes, SQL Server, and Hyper-V setup and Configured VMware datastores and virtual machines.
   - Managed defect tracking, resolved issues, enhanced systems by analysing business needs, and supported application error resolution.

3. **System Center Operations Manager (SCOM)** (Dec 2021 – Feb2024)

SCOM is part of Microsoft's System Center, a product that helps simplify enterprises' infrastructure deployment, configuration, management and monitoring. It also enables organizations to improve the agility and performance of their infrastructure and virtualized software-defined data centers (SDDCs).

*At Tata Consultancy Services:*

*1.* **Test Environment Support (WU) as Technology Analyst (Jira, Rundec, Jenkins)**

The Western Union company is an industry leader in global money transfer. In western union test environment support, team provide horizontal services to monitor and maintain all applications.

- Supported server maintenance for WUPOS QA and UAT environments, ensuring application availability, performing deployments, and creating new environments as requested.
- Monitored server resources, addressed application errors, managed Jira tickets, and performed server restarts and reboots as needed.

2. **Speed Pay as Technology Analyst (SSIS, C#, SQL Server 2008/2012, VS2017)**

Speed pay offers market-leading, innovative bill payment solutions, which serve the auto finance, consumer finance, government, insurance, mortgage, and utilities verticals.

- Created and migrated SSIS packages for data extraction from various sources (flat files, Excel, OLEDB) to SQL Server, including migration from DTS to SSIS and from SSIS 2008 to 2012.
- Developed C# scripts, configured packages for different environments, and worked with various SSIS tasks (e.g., Data Transformation, Execute SQL, Active Script) to perform ETL, data profiling, and data quality clean-ups.
- Successfully migrated documents and data to SharePoint Online, improving version control and reducing manual errors.

*At Infosys Limited:*

1. **Marketing Spent Analysis as Technology Analyst (ASP.NET, C#, SQL Server   2012)**

Marketing Spent Analysis (MSA) is the automated process of collecting the amount that spend a category geo wise and amount of time that has passed since the category was last resourced and the areas that can be sourced.

- Designing, developing, and maintaining cloud-native applications and services on Microsoft Azure using programming languages such as C# and ASP.NET technologies.
- Integrating various Azure services into the application architecture, such as Azure Functions, Azure App Service, Azure SQL Database, Azure Storage.
- Optimising application performance, scalability, and cost-efficiency by leveraging Azure monitoring and performance tuning tools.
- Assisted in monitoring and troubleshooting applications in Azure, identifying and addressing performance issues and outages.

2. **eRPM & CPM (ASP.NET, C#, MVC, Angular and SQL Server 2012)**

ePM (Enterprise Registration and Profile Management) and CPM (Customer Profile Management) provides registration and enrolment capability for the customers to meet the business need for a solution that maintains user and enterprise Data and automates all the processes and procedures in place to enhance the efficiency of the process.

- Developed application logic using C# in a 3-tier architecture, designed front-end interfaces with ASP.NET, and maintained .NET applications, resolving defects and enhancing system functionality.
- Participated in daily stand-up meetings, analyzed business objectives, identified system improvements, and managed defect tracking to ensure timely issue resolution and updates.
- Optimized application performance in .NET Core by profiling, improving database queries, and applying caching techniques, resulting in a 25% reduction in latency

*At Goose Technologies:*

1. **HarmonyV1.1 (Silver Light4.5, C#, SQL Server 2012)**

Harmony1.1 comes integrated with multiple business process management workflows. Be it proof reading and the document creation and the version control and the advanced reporting needs and the digital dashboards and displays the analytics dynamically.

## Key Skills:

- **UI Technologies**: ASP.NET, ADO.NET, Silverlight, CSS, JavaScript, Angular, C#, Golang, MVC, REST API, SSIS
- **Cloud Technologies** : Azure and Dell storage
- **Workflow Tools**: Jira, Stash
- **Frameworks**: .NET Framework (3.5, 4.5, 4.8), .NET Core, Azure Devops
- **Build Tools**: Gradle, Maven, Ant
- **Development Tools**: Postman, SharePoint 16.x
- **Version Control**: Git, SVN, Box
- **Methodologies**: Agile Scrum, Waterfall
- **Databases**: SQL, SOQL
- **IDEs**: Visual Studio 2019 & 2022, SQL Developer
- **Operating Systems**: Windows

## Education:

- ✓ Bachelor of Technology (Electronics and Communications Engineering) – JNTU, Anantapur with **79**% - 2012
- ✓ Intermediate – Vikas Mahila Jr. COLLEGE with **84**% - 2008
- ✓ SSC – Jnana Bharati School with **87**% - 2006

## Certifications:

- ✓ Infosys Certified .Net Programmer.
- ✓ INSTA Award for the year 2017.
- ✓ Exemplary Performance Award for the year 2018.
- ✓ L0 Architect Capgemini Certified

## Personal Details:

- ➢ **Date of Birth:** 20 July 1991
- ➢ **Mailing Address:** 2-46b, Bommireddypalli, Veldurthi, Kurnool – 518216, Andhra Pradesh
- ➢ **Languages Known:** English, Hindi, and Telugu
