Summary

.NET Developer with around 3 years of experience in designing, developing, and maintaining web and desktop applications using C#, ASP.NET, .NET Core, and related technologies. Proficient in front-end and back-end development, database management (SQL Server), and API integration. Strong problem-solving skills with a passion for writing clean, efficient, and scalable code. Adept at collaborating with cross-functional teams to deliver high-quality software solutions.

Education

Lakshmi Narain College of Technology, B.Tech in Electronics and Communication   August 2018 – July 2022
▭ CGPA: 8.76/10.0

Kendriya Vidyalaya, Intermediate   May 2016 – May 2017
▭ Percentage: 76.4

Experience

.NET Developer, ADP Pvt. Ltd. – Hyderabad, India   June 2022 – Present

Project Name – MMB(Monthly Maintenance Billing System)

• Monthly Maintenance Billing System (MMB) (Backend Development) : Developed backend services for for an Small business service management platform with C#, ensuring secure access control using Keycloak.

• Developed and automated manual processes using C# and ASP.NET MVC, ensuring efficiency and stability while adhering to best practices through code reviews and version control.

• Maintained and enhanced platform front-end with AngularJS while ensuring functionality, performance, and security through thorough testing, debugging, and issue resolution.

• Organized and documented implementations, collaborating effectively to meet project deadlines and resolve complex issues, showcasing strong problem-solving skills and attention to detail.

Roles and Responsibilities

Backend Development:
- Implemented business logic and data processing using **C#** and **.NET frameworks**.
- Designed and developed RESTful APIs using **ASP.NET Core/Web API** for seamless data exchange.
- Optimized database queries and stored procedures in **SQL Server** for improved performance.
- Integrated third-party services and APIs for enhanced functionality.

Frontend Development:
- Developed dynamic and responsive UI using **ASP.NET MVC/Razor Pages/Blazor**.
- Utilized **JavaScript, jQuery, and Angular** for front-end enhancements.

Database Management:
- Designed and optimized database schema for scalability and efficiency.
- Used **Entity Framework (EF Core)** for ORM-based data handling.

Security & Performance Optimization:
- Applied authentication and authorization using **JWT, OAuth, and Identity Server**.

- Performed **code optimization and refactoring** to enhance maintainability.

Programmer Analyst Trainee, Cognizant Technology Solutions   January 2022 – May 202

☐SuperMarket Billing Management System: Built an interface to facilitate the SuperMarket Billing management.
☐Implemented features for generating detailed invoices and managing inventory, ensuring accurate billing and seamless user experience through a well-structured interface.

Certifications

C# : Udemy   September 2021
Programming in JAVA : NPTEL   August 2021
ASP.NET MVC : Udemy   December 2021

Technical Skills And Additional Information

Languages: C#, .NET Core, ASP.NET, MVC, Web API, LINQ
Frontend: HTML, CSS, JavaScript, jQuery, Angular
Database: SQL Server, Entity Framework, LINQ, Stored Procedures
Version Control: Git, GitHub, GitLab
Others: Junit, RESTful Web Services, Microservices
Other Skills: JIRA, Bitbucket, CDU, SharePoint, Splunk, Debugging
Methodologies: Agile (Scrum/Kanban), SOLID Principles, Design Patterns
Soft Skills
✔ Problem-Solving | ✔ Team Collaboration | ✔ Communication | ✔ Adaptability | ✔ Analytical Thinking
Languages: Hindi, English
