Golla Geetha

9573159201 | gollageetha565@gmail.com | Hyderabad

Profile Summary

Results-driven Software Engineer with 3+ years of experience in designing, developing, and maintaining scalable applications using Java. Proficient in building RESTful APIs and managing databases. Adept at problem-solving, debugging, and collaborating with cross-functional teams to deliver high-quality software solutions. Passionate about innovation, best coding practices, and continuous process improvement.

SKILLS

Java, Spring Boot, Microservices, RESTful APIs, AngularJS, React, Core Java, OOP, JUnit, Agile Methodology, SVN, Maven, SQL, Apache Kafka, Spring, Confluence, Jira, TDD, HTML, CSS, Design Patterns

Experience

Optival Health Solutions | Hyderabad
Software Engineer | 10/2023 - Present

- Configured four slabs for varying service charges and mapped them to different locations. Applied location-based pricing logic, resulting in a 20% increase in the company's overall profit.
- Built a customer ticket feedback system using React, integrated REST APIs for seamless front-end and back-end communication, and utilized MySQL for efficient data storage.
- Built a mart checkout system using React, Java, Spring Boot, and Microservices, optimizing prescriptions, delivery, and payments, increasing checkout efficiency by 40%.
- Transitioned a monolithic application to a microservices architecture using Java and Spring Boot, reducing downtime by 40% and improving scalability by 50%.
- Collaborated with cross-functional Agile teams to analyze requirements and implement features, reducing project delivery time by 20%.
- Designed and developed microservices-based applications using Spring Boot and Java. Created and maintained RESTful APIs to enable seamless interaction between services.
- Conducted code reviews, performed unit testing and debugging, ensuring code quality, security, high performance optimization, and bug-free releases.

Optival Health Solutions | Hyderabad
Trainee Software Engineer | 09/2021 - 09/2023

- Developed a membership system for organizational employees and a membership process for purchasing pharmacy and healthcare plans within the CRM using Java, Spring Boot, and AngularJS.
- Implemented a bulk product creation screen using Java, Spring Boot, and AngularJS, enabling the simultaneous creation of 100+ products, improving efficiency and reducing manual entry.
- Participated in Agile development cycles, contributing to sprint planning and conducting unit and integration testing of the bulk product creation screen using JUnit, ensuring high-quality delivery.

Education

Vidya Jyothi Institute Of Technology | Hyderabad
Bachelor's Degree in Computer Science | 08/2021
